

Haedi

Curtevenne 830 AK/OK
 4+2 Sleeping places
 8,35 x 2,70 x 0,80m
 Build in 2004, Vetus M414 33 HP
 170L Diesel, 170L Water

The Haedi is a star in the constellation of Auriga. The star is also as Haedus.

The boat Haedi is similar to the Polaris. A yard built Curtevenne 830 AK from the shipyard in 'Kortenhoef'. The Curtevenne model has a fairly clear layout. Despite of the dimensions this ship is a spacious and practical motor yacht with 4 berths and a dining saloon that can also serve as a berth for 2 people. Even fixed bridge heights of 2.50 m. don't present a problem and allow you to find some of the best and quietest moorings in the National Park 'Biesbosch' or in 'Het Groene Hart'. Please note: by booking this ship without any experience, the Skippertraining is obligatory.
